

Strategically located in the heart of the UK, **Towerinput [TGL]** are specialists in the production of GRP and Phenolic Resin Mouldings for both the UK and European Rail, Transport and Associated Industries.

TGL has more recently enhanced their portfolio with the ability to supply *Rail Industry Pipe Work Systems*.

TGL has a team of highly qualified and competent manufacturing staff with many years experience in the production of *Internal and External Doors, Body Panels, Valances, Head Light Housings* in GRP and Phenolic Resins.

To these strengths is added the ability to successfully procure and supply qualitative products for both *Rail Bogie* and *Carriage Pipe Work* requirements.

TGL designs, produces and maintains its own Tooling for the manufacture of GRP and Phenolic Resin Mouldings.

This encompasses:

Doors – External – MKI, MKII, MKIII, CL158 Gangway

End Door. Internal – All Classifications as well as Toilet and Modular

Side Skirts – All Classifications

Valances – All Classifications

Head Light Covers – All Classifications

Litter Bins – All Classifications

Wall Panels – All Classifications

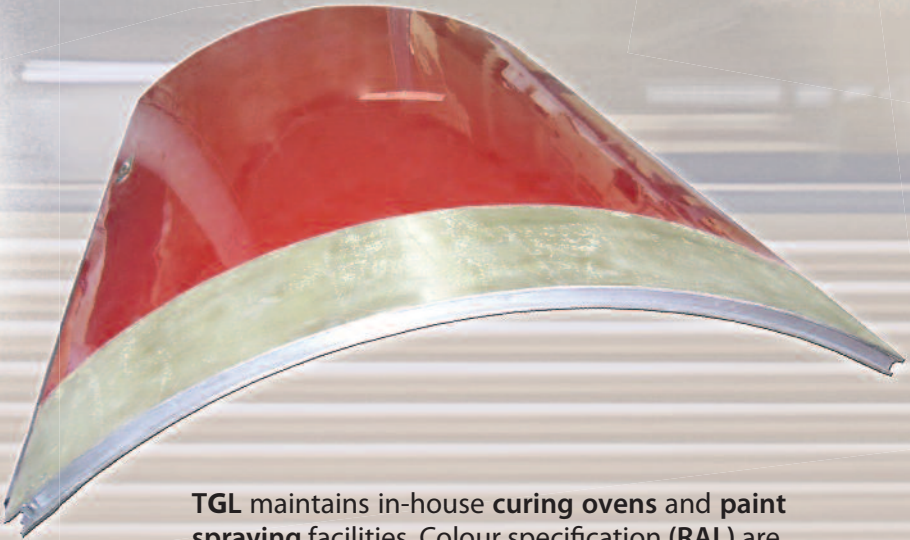

Ceiling Panels – All Classifications

Egress Covers – All Classifications

Register Doors – All Classifications

Baby Change Tables – All Classifications

Information Pods – All Classifications

TGL maintains in-house **curing ovens** and **paint spraying** facilities. Colour specification (RAL) are maintained to ensure product uniformity.

TGL is now able to supply Pipe Work associated product for both Carriage and Bogie applications.

This would entail the production of *Preformed Pipe Work in Stainless Steel, Zinc Plated Mild Steel, Alpha Brass and Copper. Flexible Hydraulic and Pneumatic Hoses, Preformed Silicon Hoses, Pipe and Hose Clamps, Quick release couplings, Fabricated Brackets, Pipe Work Unions and Fasteners* would form an intrinsic part of the total supply package.

TGL prides itself in continuing product improvement

The benefits to our customers:-

- **Single Source Supplier**
- **Reduced Stock and Warehouse commitments**
- **Simplified Supplier Management**
- **Reduced Purchasing Costs through less administrative involvement**
- **Just in time delivery**
- **Supplier with an aim of never ending product improvement**

TGL is committed to **Total Quality Management** and is accredited to **BSEN ISO 9001-2008** and has also achieved **Link-Up approval**.

The quality systems within the company are maintained to the highest levels and as such are audited on a regular basis.

TGL suppliers are constantly audited to ensure the maintenance of the highest quality of product available and that they share our ideals of continued quality improvement.

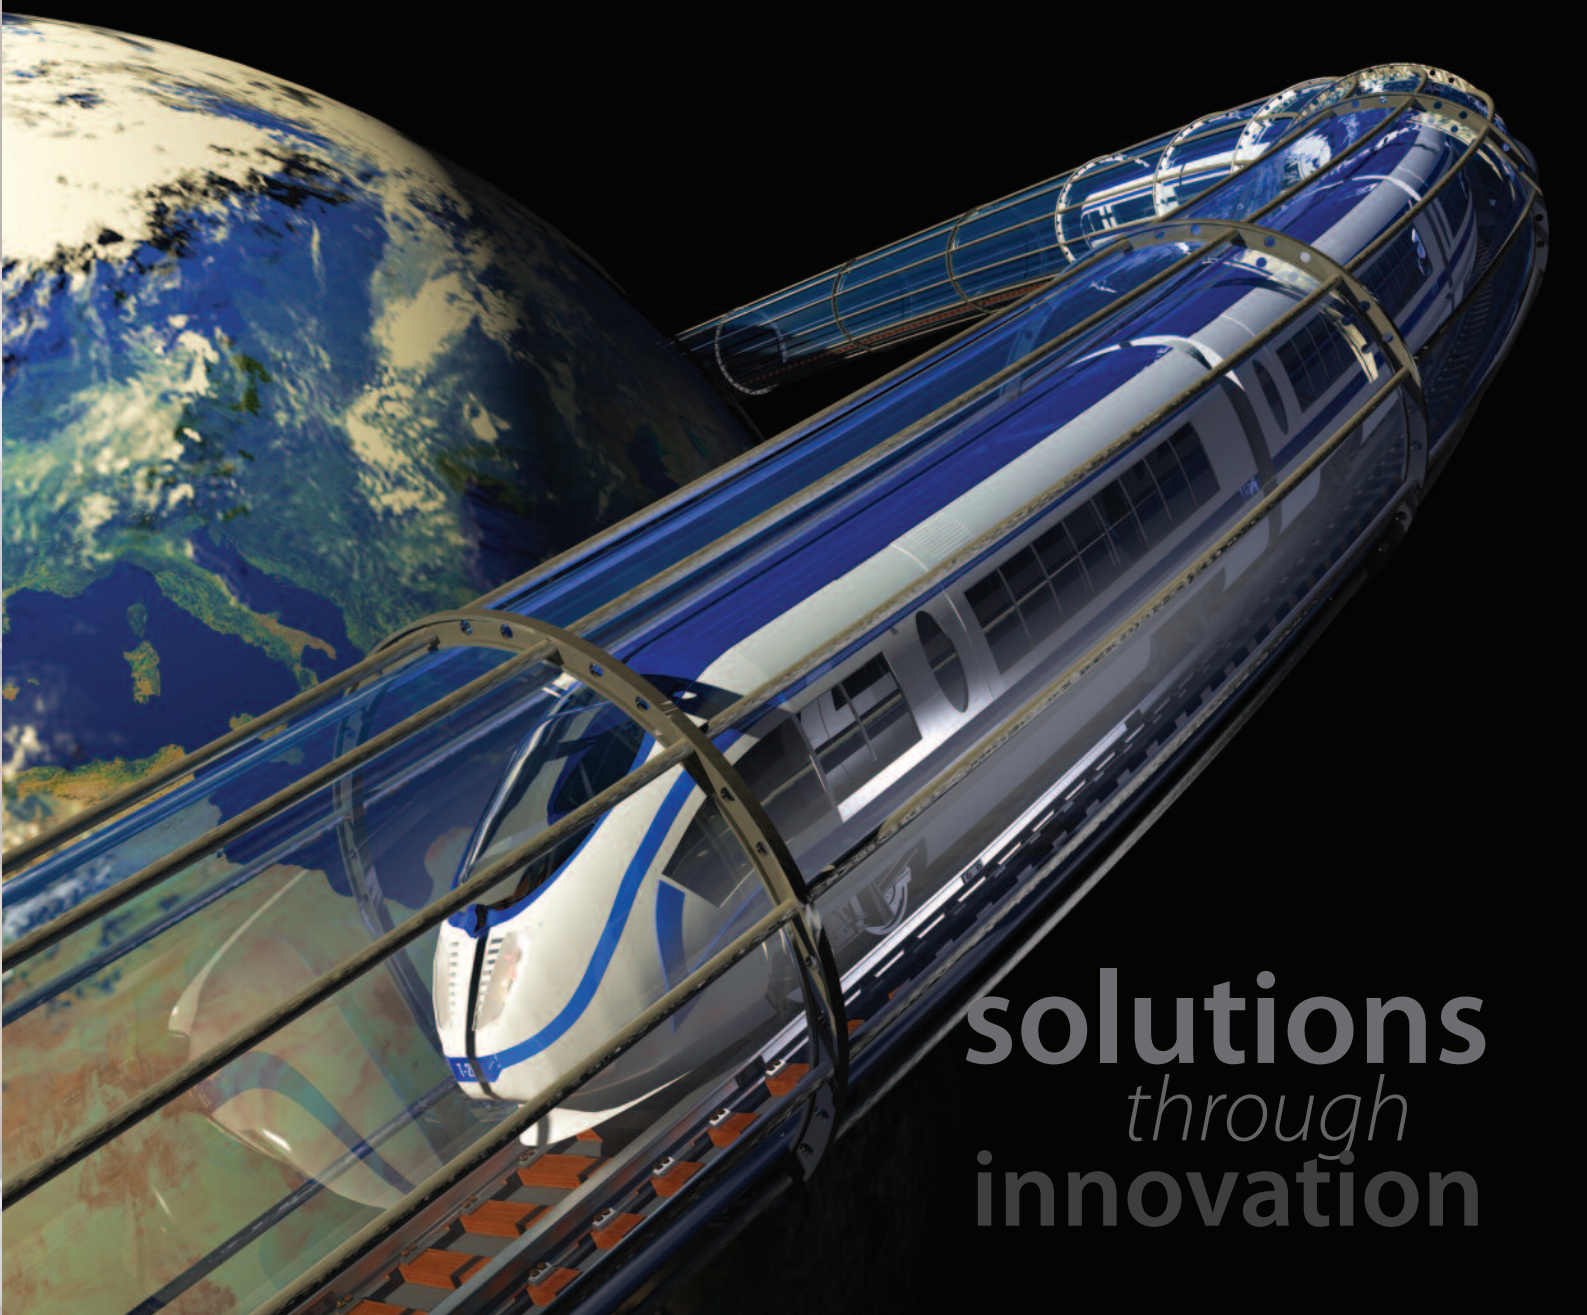

The company is currently reviewing **IRIS accreditation** as a part of its further commitment to quality improvement.

TGL prides itself on its ability to quickly react to Market conditions

With ever reducing levels of Stocked Products being carried by Train Operating Companies (TOC'S) and Train Vehicle manufacturers, New, Damaged and Repairable Products need to be supplied or turned around as quickly as possible.

TGL is able to hold a stock of standard product and to dedicate a team to the complete repair process to quickly and effectively ensure the return of serviceable product in a condition matching that of the original supply.
